SPECIAL PRESIDENTIAL BONUS FOR PENSIONERS

The Public Service Commission wishes to announce that guided by developments in the market as well as the need to cushion pensioners from the adverse effects of fluctuations in exchange rates, a Special Presidential Bonus, made possible by the magnanimity of His Excellency, President E.D. Mnangagwa, will be paid to pensioners this month in US Dollars.

This is in addition to the usual pensioners monthly payments.

Government remains committed to protecting and cushioning pensioners from market distortions, which include speculative currency abuses and rent seeking behaviours prevailing on the market, and as such urges all pensioners to exercise caution when transacting.
